

Music

Mission Statement

The Berry College music program seeks to support the mission of the college by educating students in the discipline of music in three ways.

First, the Music Program prepares music majors to pursue a variety of academic and professional interests by means of a comprehensive education designed to inculcate a deep understanding of music history, music theory, music education, performance practices, and principles of music business.

Second, the Music Program contributes to the general liberal arts education of all students by providing a well-rounded study of various musical styles, historical periods, fundamentals, and the development of a music vocabulary appropriate for a well-educated individual.

Third, the Music Program seeks to enrich the cultural atmosphere of the institution and the community by presenting concerts and recitals by faculty, students, and guest artists.
