A photograph of Berry College's Gothic architecture, featuring a prominent stone tower with a spire on the left and a large central building with multiple gables and arched windows. The scene is set against a sky with soft, warm light, possibly at dawn or dusk. The foreground shows a well-maintained lawn with several small, rounded bushes and a stone path. The top of the image is framed by a blue and white diagonal striped pattern.

BERRY COLLEGE

Explore the world
and
make it your own.

Be taught *and* teach others in return.

Our visionary founder, Martha Berry, believed in the importance of selfless service and the transformative impact of education. She championed the power of people helping people. She had the daring of an entrepreneur. She saw the possibility of positive change and worked without pause to make it happen. Which is to say, she was a lot like our students. If you see yourself in the spirit and values of our legendary founder, come take your part in her legacy while building your own.

Expand your horizons *and* find your place.

At the risk of being immodest, our campus is extremely large (27,000 acres for research, running, hiking, contemplation, etc.), exceptionally beautiful and home to a variety of unique resources for hands-on learning (three laboratory schools, a dairy farm, a museum and an equine center, for example) — all staffed primarily by students. Here you will have a backdrop as broad as your ambitions and as specialized as your specific career path.

2100+ students • 14:1 acres-to-students ratio • 90 minutes from Atlanta & 75 from Chattanooga • 88 miles of trails • nearly two times larger than Manhattan • 1:1 deer-to-student ratio

Grasp an idea *and* shape it with your hands.

One of our founding principles is that hard work is essential to character development. We also happen to think it looks great on a resumé. As a Berry student, you can experience the equivalent of eight consecutive paid internships during your college years, working in teams to run most of the College's operations, building seniority as you go, and taking on substantial leadership roles by the time you graduate. There is no other college where learning, life and work are so purposefully related.

More than 1,000 job titles, including:

- IT tech • mountain burn controller • referee • bio researcher • teaching assistant • concert organizer
- cook • landscaper • equine farm operator • office manager
- business assistant • personal trainer • ropes course instructor
- musician • broadcast engineer
- dairy hand

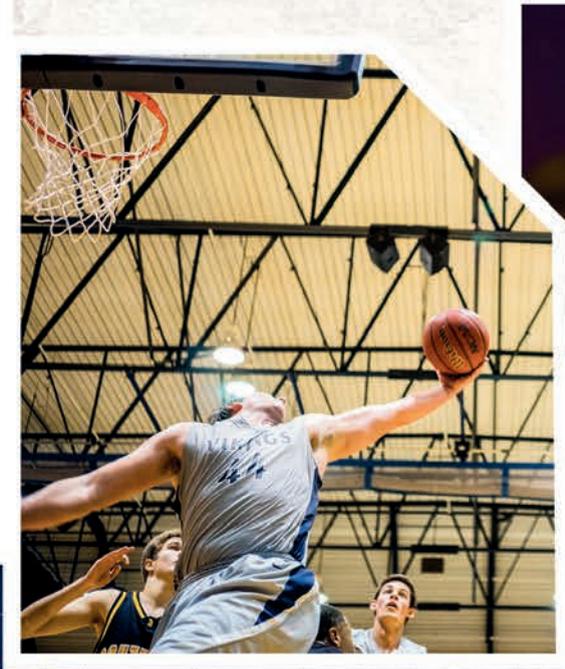

David Warren (above), a 2017 graduate in music education, was "a natural on the podium," says Assistant Professor of Music Lauren Denney Wright. "I watched him audition and be awarded the head conductor of the Phantom Regiment Drum and Bugle Corps for three consecutive years, as well as win the Jim Jones Leadership award from Drum Corps International in 2014." David's student teaching at Rome (Ga.) High School has led to a permanent position as he embarks on his teaching career.

Get outside *and* fuel your competitive fire.

Student life at Berry is driven by your voice and built upon the idea that anything worth pursuing is worth pursuing fully. While Berry students often give of themselves through participating in countless service projects and organizations, they are fierce on the court and in the pool. In addition to the 21 varsity sports Berry fields, fuel your competitive spirit through club and intramural sports as well. Prefer the stage? Don't worry! We wouldn't be able to put on four main-stage productions each year without you!

Fun at the Cage, a 131,000-sq.-ft. athletic center
• on-campus coffeehouse • outdoor movies •
horseback riding • volunteer opportunities • theatrical
performances • poetry readings • studying abroad

Form an idea *and* test it every day.

By the time you graduate, you'll have gathered a community of mentors along with a formidable collection of experience, skills, smarts and self-reliance — qualities that lead to career success and personal satisfaction. More importantly, you'll have a strong sense of direction and the confidence of knowing why the path you've chosen is important — to you, and to the world.

11:1 student-to-faculty
ratio • 95% of professors
hold the highest degree in
their field • 3 lab schools
for education majors • 20+
countries for study abroad

Majors and Minors

Accounting (BS)

Animal Science (BS)^m

Concentrations:

Pre-Veterinary/Pre-Professional Science
Production/Management

Sociology^m

Spanish (BA)^m **

^m Minor also available.

* Teacher certification available at secondary level if combined with a secondary education major.

** Teacher certification available for grades P-12 if combined with a secondary education major.

Speech (minor only)

Sports Administration (BS)

Teaching English as a Foreign

Language (minor only)

Theatre (BA)^m

Web Development (minor only)

Women's and Gender Studies (minor only)

Pre-Professional Programs

Pre-Veterinary, Pre-Medical, Pre-Dental,

Pre-Pharmacy, Pre-Health Professions,

Pre-Law, Pre-Physical Therapy

Dual Degree Programs

Astronomy with University
of Hawaii: Hilo

Engineering with Georgia Institute
of Technology School of Engineering
or Kennesaw State University

Nursing with Emory University
School of Nursing

Scholarships and Aid

Yes! Berry is a private college – with small classes, a high degree of personal attention and extraordinary opportunities for development.

No! That doesn't mean it will be out of reach for you financially.

What?! It's true. We use our resources to make sure that students from many backgrounds can afford this education. Because it's part of our founding mission. And because it benefits everyone to have as many voices as possible at the table.

2018 Tuition and Fees + Housing and Meals: \$36,556 + \$12,770 = \$49,326

2018 Merit Scholarship Range: \$7,000-21,000

2018 Need-Based Grant Range: \$3,000-\$10,000
